	There is small percentage that are flighty in the crush and race. In a large yard, they may have a tendency to run however are settled by the rest of the mob. As an assessor, I am aware these cattle have had minimal handling and believe, with further education/handling, they will settle down accordingly.
Handled With	Bikes
Assessor Comments	These steers are out of a good framed Angus herd by Texas Angus bulls. These steers have been yard weaned for a month on straw hay and molasses. They are in ideal condition for anyone that is looking for a good quality well weaned steer that will go ahead in leaps and bounds on good pasture or forage crops. Two steers with healing eye infections - treated at assessment and will be reassessed at delivery.
