| | |
|---|---|
| HGP Status | The owner declares that the cattle have not been treated with HGP at any period of their lives |
| WHP/ESI | Cattle are within a Withholding Period or Export Slaughter Interval for: Vetmec Cattle Pour On as of 07/10/2022 for 42 days |
| Health Treatments | Cows & Calves Drenched 07/10/2022 Vetmec Cattle Pour On |
| Chemical Residue | Clear - No known history. |
| J-BAS Score | 6 |

| | |
|---|---|
| Joining Details | Station Mated - Continuously Joined<br>Bull Breed(s): Simmental, Santa Gertrudis |
| Preg Tested? | No, this lot was not pregnancy tested. |
| Other Joining Details | Good quality bulls used from Moongool and Munnabah Studs. Bulls were put in when cattle were purchased as back up. |

Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 70 head<br>Slightly Stirry: 12 head | Quiet: 75 head<br>Slightly Stirry: 5 head<br>Stirry: 2 head | Temperament not assessed in Paddock |

Cows handle flow naturally through yards, with odd cow becoming agitated when confined or pressure put on. Most cows stood well in crush.

| Assessor Comments | Cows and calves on offer that were purchased PTIC to Angus bulls in February this year from AuctiosPlus. Cows are young and fertile, with oldest cow 2 years old. Cows were weighed after a big curfew. These cows have done an excellent job on the calves and offers the buyer an opportunity to trade into cow and calf split, with high chance of cows being back in calf to good quality Moongool Simental and Munnabah Santa Bulls. Cows are best described as medium frame with some large frame and some small frame. The calves at foot are in fresh sappy condition with an average of 172kg, with nearly all showing Angus and Red Angus characteristics, but please use photos as your reference. All animals were backlined in early October. One cow knocked her hip in the yards while drafting, there was no limp or obvious sign of pain. She was given penicillin at assessment. One cow had a toenail split. |
