Very quiet cattle a pleasure to handle flowed through the yards well.

Handled With Bikes , On foot , Vehicles

Assessor Comments Excelllent quality young Dunoon Angus blood and bred "S" drop cows, all but 4 of these cows are registered and would add quality to any herd they went into. These young matrons have had two calves and are PTIC again with high marbling Wagyu bulls used with a tight calving window, vet scan indicates 9/3 until 6/4, totalling 28 days. Only offered due to seasonal conditions otherwise would be retained to produce F1 Wagyu Angus progeny for high end beef. These young cows are very quiet and are a pleasure to handle and would be a welcome addition to any herd, ideal young cows with the hard work all done they present in ideal condition moving forward and would be easy to maintain until calving early next year. A full animal health program is in place with all treatments and vets calving dates attached to the assesment. Please note vendor has 1 other lots of PTIC young Angus cows totalling 45 head on offer.
