These heifers handled well through the yards for assessment given they had been through already for pregtesting on a very warm day. 5hd exited the crush a little faster than the rest but settle back on the mob well.

Assessor Comments: A great opportunity to purchase well bred, vendor bred Angus heifers. These heifers are bred to perform - with only Rennylea Angus bulls being purchased over the last 7yrs, these girls would be a great top up as Autumn breeders or grow out to heavier feeder / kill weights. The girls have come through a very tough 12 months, but are bred to excel in the field of your choosing. At assessment there was a couple a little lame as they had broken the tip of their toes off. Weights - 294kg - 444kg to Ave 358kg at assessment. NOTE - A very small % has old warts and ringworm.
