Assessor Comments	On offer s a quality line of 29 AI bred Angus/Fries x heifers that are very quiet. These heifers are by quality AI sires Treasure, Alternative, Output and are out of big 700-800kg Friesian Cows. They have been very well reared and properly weaned onto a complete sileage ration to weigh. Heifers do vary bit in size but same quality with av weight 186kg. They have had all their health treatments and have management tags with DOB, Sire and Number. Credit to the vendors they are all good in the eyes. Lovely quiet well bred heifers that be ideal to grow out for quality future breeders which i do not think could find a better bred F1 female. Or simply low cost, nice quiet hassle free heifers to grow out and fatten. Would fit neatly on a tray truck. Please note is 34 brothers in same sale would all fit on a 48ft single deck. Please note delivery only certain times able to accommodate loading out, which can organise local carrier if preferred.
