Quiet: 35 head	Quiet: 35 head	Temperament not assessed in Paddock

Properly weaned & educated heifers. The vendors have put time & effort into handling these calves and it shows when being assessed and in the videos. Exited the yards in a quiet fashion walking back to their paddock without so much as breaking into a trot. Walked through race and stood on scales with a minimum of fuss. Out of a herd that all have a quiet temperament. Pleasure to assess.

Notable Traits

	Traits
8 Head	Odd old ringworm on some heifers, clearing up now
2 Head	Old pinkeye scarring, still have sight from affected eye

Assessor Comments: Vendor Bred, Autumn Drop Heifer Weaners offered by the Harbison Family. 9 - 10 month old calves that have grown out well considering the challenging conditions & lack of rain. Heifers present in store order, not carrying any excess condition. There was a small amount of Ringworm on some heifers and 2 heifers had old Pinkeye scarring that was not active with full sight still in eye (see photos for example). Properly weaned & yard educated these weaners were a pleasure to draft & assess. Dunoon blood heifers out of a large framed cow herd that will grow out into ideal future breeders or fatten for the trade. Previous purchasers have finished to heavy kill bodies and have been happy with the performance and growth rates. Vendor also has 47 Steers, similar description, in the same sale. Grass fed & antibiotic free declaration available upon request.
