	Handled well during weighing in a confined area, although not overly comfortable with pressure in an open yard with many of these heifers rarely standing still. They are a lot more receptive to a vehicle in a paddock opposed to being on foot.

Assessor Comments	Graham Aldridge of Mansfield is offering a draft of his surplus Poll Hereford heifers for genuine sale. This year we saw their operation retain 25 of their top Autumn drop heifers for replacements based on phenotype & a critical mating weight. These females being offered for sale essentially represent a secondary draft with approximately a 15% tail being removed. Graham has been utilizing Injemira & Wirruna Poll Hereford genetics for many years with an emphasis on phenotype & all relative growth EBVs. An ideal article to purchase for backgrounding into the EU feeder market or retain as future breeders.
