Assessor Comments	A good line of crossbred weaner steers off coastal country that are ready to go ahead in a good paddock or crop, these steers have the frame to be ideal for the future feedlot or slaughter markets. Steers were let go back with their mums after the assessment but have very little to no milk fat on them and are ready to be weaned. a few steers have slight rub marks. Steers were treated with moxedectin at time of assessment.
