		Store	75%

Temperament

Yards	Crush	Paddock
Quiet: 58 head Slightly Stirry: 5 head	Quiet: 58 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

These females were good to handle. A couple of females were slightly unsettled when pressure was applied in the yards but once taken off they settled down. These females have been educated to move when pressure is applied but also settle when the pressure is off.

Handled With: Bikes , Dogs

Notable Traits

	Traits
2 Head	Old eye scarring (1 eye only). Not detrimental in assessor's opinion.

Assessor Comments: Top quality line of 2019 drop PTIC Angus females. Females are PTIC to commence calving early August 2026 for approx 49 days calving period. Joined to industry leading Galimbang Angus sires (EBV's attached). These fertile & productive breeders had weaners taken off at pregnancy testing/assessment (12/1/26) and have done an excellent job raising their calves. The vendor has been using the highest quality Angus genetics available in their herd with a focus on Birthweight, 600Day Weight & IMF. The Galimbang cattle have a history of performing exceptionally well on feed and are highly sort after by repeat feedlot buyers. This offering represents the entire drop of classed in breeders that are surplus to the vendor's program at this age every year. Buyers this is a not to be missed opportunity to purchase quality Angus genetics from one of the top herds within the Adelong district. Cattle come highly recommended! Please see PDF attachment for sire and preg scanning results.

Assessor: **Nick Gilvarry (Level 1 Accredited)**
