| Assessor Comments | Attention all buyers today on offer we have 52 Droughtmaster Cross Heifers. All the Heifers are coastal bred and given the opportunity will power away. These Heifers are showing great growth and are in good store condition considering coming through Winter but it was noted a few Heifers a little bit off the pace due to their age. On assessment the Heifers averaged 227kg on delivery. The temperament of these Heifers is a credit to the Vendor which will be an asset if kept for future breeders. Vendor is offering these Heifers clear of the dip. It will be the buyers expense to cover the cartage from the property to the dip. Heifers will need to be cleared prior to moving across the Tick Free Line. |
