Assessor Comments	Buyers, here is a good quality line of EU accredited Euro and Euro cross steers. They stand on strong bone and present good length and frame. These steers have a good reputation for weight and doing ability in feedlots or on crops. This lot would be ideally suited to targeting the heavy feeder or slaughter markets. They are starting to power ahead and will explode if given the opportunity on good feed. ***Buyers please note*** 48 of these steers were weaned on 15/07/24 and have been running in a Buffel grass paddock since 20/07/24. The balancing 22 steers were weaned on the 23/08/24, they have been yard weaned and grazing on good quality hay and will remine in the yard on the hay until delivery. These steers have been pretreated for cattle tick to assist potential buyers in the tick free area, however, it will be the purchasers responsibility to ensure all cattle tick regulations are followed.
