Assessor Comments	Buyers on offer we have a line of 32 PTIC cross bred cows. All cows are 3 to 6 years of age and have weaned a calf only a month ago. Cows are all in calf to Texas Maverick R790 as well as sons of this bull bred out of stud cows. They have been continuously joined and are set up for late winter through to summer calving. Cows were very good to handle and usually handle by lady on her own. They are all sound and healthy with plenty of future left for these girls and would suit someone making a start or great addition into existing herds. 2 cows have minor blue scarring in one eye. Please note vendor also has 19 PTIC heifers and 15 stud cows in same sale.
