Accessing these heifers I class them as cattle being handle in large mobs and minimal one on one education therefore singled out they wish to be back with company. In saying that they flow very well through race and yards. Vendor said these heifers are respectful in the paddock using horses, bikes and dogs. The heifers have been part of a cell grazing program. These heifers where also preg tested at assessment so a some became upset In the crush but resettled once back in the main mob.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Assessor Comments Buyers here is a line of six decks of PTIC Charbray Cross heifers in calf to Charbray and Brahman bulls. These heifers are a functional line off medium framed females that should grow out remaining on good nutrition and continuing to be functional cows for the remainder of there breeding time. Very large percentage of these heifers are one brand. They are good and tidy around the heads. Please note a percentage of these heifers are showing signs of rubbing around eyes and neck, also 4 heifers noticed to have slight dog bites in various spots not deem to be detrimental. Please note the vendor has another five decks available in the same sale. Buyers please note these weights taken after an over night wet curfew. These heifers are genuinely for sale at the vendors instructions.
