Assessor Comments

Rising 3.5 year old Bongongo Angus blood young cows, preg tested in calf by Holbrook vet centre to calve in the spring to the Rockwood Angus bull (certificate attached). Originally from "Birroon Pastoral" at gunning & were purchased via A+ as weaners in 2023 to bolster the vendors breeding herd size & quality. Cows have successfully reared 2 calves previously & are now carrying their 3rd. The young cows present in forward/prime condition & stand on a medium frame, have a great temperament & I think would be a great asset to any operation no matter if big/small or to top up existing numbers given that there breeding, age & temperament represent quality, quiet no fuss females that have many more years ahead of them. NOTE: Exact bull in & out dates have been provided by the vendor & a professional employed to preg test the cows to give buyers full confidence in calving outcome, preg test "term in months" was not stated on certificate so has been based on bull in/out dates.
