A well handled line of Cows & Calves, Cows are used to being in the yards and going through the crush. Cows & Calves stood calmly for photos and were relaxed under assessment, with only 1 Cow looking to get away and presented nervous under pressure, but nothing of aggressive nature. Same Cow was agitated in the crush but once again not aggressive.

Assessor Comments	21 PTIC mixed age Angus Cows with 4-6 month old Angus Calves at foot. A well bred mob of quiet Cows & Calves presenting in store condition with plenty of upside & potential. This group have done a fantastic job of their calves at foot considering the dry conditions over the summer. Cows are large to medium frame & have an ideal temperament to deal with, only 1 cow became nervous under pressure & a bit agitated in the crush but showed no signs of aggression. This line of Cows & Calves have been rejoined for Spring Calving to the same Angus bulls, posting them to be a wonderful purchasing opportunity for anyone looking to inject some quality units into their herds or provide a great option for starting a new program. Cows in this condition are ready to stack on the weight and finish their calves at foot before calving down again this Spring. A recommended '3 in 1' purchase. Please note one calf has a small old pink eye scar but was treated early and correctly.
