Assessor Comments	Quality line of well-bred Angus steers, presenting in store to forward condition, small tail of steers (under 340kg) removed at assessment. Observed 5 head with cloudy eye & 2 head with old pinkeye scarring (dot) does not appear to have had any negative impact. Management tags will be removed prior to delivery. Steers are out of cows purchased as PTIC or with CAF, good frame cows showing trueness to type, being evident in steers. These steers are doing well on crop and developing into ideal steers to feed on and target trade or export markets. Please note delivery days. Heifers same sale.
