Heifers worked well through the yards. Some heifers became agitated when put under pressure in confined spaces but settled once back with their mates. Heifers need to be steadied through gateways.

Assessor Comments	Presented is a quality line of Station Mated Heifers and Calves. These Heifers are on their first calf and are doing a great job on the progeny. The good Santa cross calves are ideal for all future markets to grow out or retain female portion. Buyers please note that these Heifers have been running back with Yarrawonga Santa Bulls approximately the Last Four (4) weeks, with the possibility of some Heifers having a 3 in one package given range in Calves ages. Please note that all calves have not been processed and bull calves have not been marked. It was noticed at assessment 3 of the Heifers have not yet calved but are showing signs of "springing". At Delivery these 3 Heifers will be re evaluated to comply with all FIT TO LOAD protocols. Overall a quality line of heifers with plenty of breeding left in them.
