	They handled very well through a good set of pro way yards. Just a few heifers were rushing into the crush but settled once returned to the others.

Assessor Comments	Quality line of PTIC heifers, joined to LBW Irelands Angus Bulls, These heifers are pure Rennylea blood, originally purchased as vendor bred heifers from a renowned breeder in the North East. They are soft bodied, stylish heifers that will continue to bloom into a quality line of breeders. They have the genetics and the backing for a head start into a breeding program or would make the ideal change-over article. Please note: 6 were noted to have old pink eye scarring not deemed detrimental to vision, 8 heifers have white near udder, and 4 heifers have warts, one heifer with more is pictured last in the assessment media.
