Vendor Comments: We have spent a lot of time handling these cattle in the paddock pre and post-weaning and they are extremely quiet to handle.

Temperament	Yards	Crush	Paddock
	Quiet: 38 head	Quiet: 36 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

The vendor has spent an amazing amount of time handling these cattle and they are extremely quiet to handle. However, cattle can react differently after trucking and in a strange environment.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A very nice line of young Angus and Angus cross steers. The majority are black-coated with 1 head being Charolais cross. Steers would fit into most Angus Cross branded feeder programs. These cattle were an absolute pleasure to handle throughout the assessment and drafting process. Steers would suit to finish for either the Domestic or Export markets. Over the last 73 days steers have been gaining 1.3kg/day. Please note ringworms present on the heads of some steers. This is the complete drop with 6 Lighter Steers removed at assessment. Top quality calves.
