	Very easy heifers to handle , they ran through the crush easily, a few did not like the crush but nothing unusual there. They were worked through the yards and a rotational grazing system after weaning. Overall well handled cattle.		
Handled With	Bikes , Dogs		

Notable Traits		Traits
	3 Head	Small amount of white under the flank.

Assessor Comments	78 NSM weaned Angus heifers, well bred Landfall blood heifers that were early weaned in March. They have been on unimproved dry pasture since weaning hence they have the frame but not the condition. Heifer that are on the move forward and would respond quickly to grain or grass. They have had all the health treatments including Pestiguard. You are buying all cattle and no condition. There is another two lots of local district cattle also in this sale.
