Notable Traits

	Traits
5 Head	Slight eye scarring in one eye
3 Head	White patch on or around udder

Assessor Comments: Well bred line of NSM Heifers. They are well grown for their age and exhibit all the quality traits the breed desires. This line represents the tops of the drop with no females to be retained on this farm. All heifers were weighed 330kg+ with any off types visually removed post weighing. They stand evenly as a group, carry a clean bill of health and are in forward store to slightly forward condition. They are in ideal condition leading into the Spring joining period and will continue to perform if given the opportunity. Great opportunity to put together a b double of one mark heifers if desired. Heifers are to be offered in two lots of 50 and will be delivered of even quality at delivery if required. Please call for any more information
