	Cattle very good to handle. The odd heifer some run in yards and agitated in crush but nothing silly. These heifers have had extended time on the stock route with a drover so have been handled daily for 5 months.
Handled With	Bikes , Vehicles
Assessor Comments	Whats Not to like about these. 255 Angus Heifers. Feb/April 2023 drop. Ave 458 kg empty. Weighed between 420kg full & 588 kg full. Heifers are well bred , well grown for age , are in forward store condition. Heifers are preg tested empty at assessment. Ideal as future breeders or as feeders , a great line of 1 mark cattle. Feedlots can pick them up over 2 weeks if needed. Cattle are just starting to lose winter coat so weight gains should be exceptional over the next few months. 30 heifers mouthed and were majority milk teeth with 3 2 tooths. We are not making guarantees about teeth. Please ring with any questions.
