Assessor Comments: A very well bred line of Angus Performance Recorded heifers. These heifers are showing good frame & are ready to explode away given the right feed opportunity after a very tough autumn & winter in the local area. The Rossrich herd are highly regarded in the local area for quality angus cattle. IMF has always been a high priority for genetic selection at Rossrich. Bulls bred from the Rossrich stud are keenly sort after, testifying to the quality & success of this seedstock program. The Rossrich genetics are well recognised and feature regularly in the NVLX Barnawatha store sales. These heifers are quiet and will be an asset to any quality cow herd. Highly recommended. Tail draft removed at assessment. Please note a list of the sires of these heifers & their EBVs are attached in documents.
