Handled well while on their mothers and once drafted off flowed through the yard calmly.

Handled With	Bikes , Dogs , Horses

Assessor Comments	Backgrounders these heifers need no introduction to the industry, they are bred by big boned, long, thick sires and out of a very functional large and medium framed cow herd, while being bred in Tordoned forest country. These heifers are bred to perform by using great sires from Dunlop & Dangarfield Santa and horned Herefords from Sowden Farms. This is the youngest line of heifers being offered this year and still show plenty of growth for age. These yard weaned heifers are EU Accredited and PCAS eligible, there's plenty of frame showing in these heifers and they're sure to grow out to solid trade or export weights. These weaners will be plunge dipped in a Tixafly dip prior to delivery. I highly recommend this line of heifers.
