Assessor Comments: Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned steers with the hard work done. The steers stand on very good bone and show fantastic length and weight for age. They have a live weight range 340kg to 450kg and an average weight of 367.8kg at assessment, please note there is only 6 steers in this lot over 400kg the balance are from 340kg to 399kg. These steers would be ideally suited to background and grow out to target the heavy feeder or slaughter markets. These steers have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Please note the vendor has another 2 deck line of weaned steers and a 3 deck line of weaned heifers in the same sale.
