Steers flowed well through the yards and were easy to handle, any steers that got agitated whilst being processed quickly settled once pressure was released and they were back with the mob.

Assessor Comments	Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned steers with the hard work done. The steers stand on very good bone and show fantastic length and weight for age. They have a very tight weight bracket of 33kg ranging from 302kg to 335kg and an average weight of 320.2kg at assessment. These steers would be ideally suited to background and grow out to target the heavy feeder or slaughter markets. These steers have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Please note the vendor has another 2 deck line of weaned steers and a 3 deck line of weaned heifers in the same sale.
