Well tempered weaners that respect yards and handlers. Calves have been weaned and worked through yards only a small percentage became stirry when placed into crush yet settled down once released to mob. Overall good to handle for persons with prior stock knowledge.

Assessor Comments 105 Outstanding well bred Angus x Angus Heifers. Complete drop minus a small tail removed at assessement, cattle were split steer and heifer and were assessed for sale. Heifers are vendor bred and by 'Booroomooka' sired calves out of big-framed Angus cows, calves are usually kept and grown out to feedlot entry weights. Heifers have been weaned 3 weeks prior and are going forward after weaning. Please note vendor is also offering Steer portion on separate assessment in the same sale, Buyers don't miss a fantastic opportunity to secure highly sort after cattle.
