Assessor Comments	Buyers 22 Angus heifers 342-404kg to average 368kg at assessment. These heifers have been sired by the Durkin Angus bull and out of the vendors own Angus Angus cross cows. These heifers have been running on the oats since 14th of July and have extremely well. Season & oats have been on point and these heifers should continue hitting their straps and would suit most kill jobs or would provide good quality heifers to retain as replacements. Heifers were preg tested at assessment by local vet Dr Kate Dufty and they are all NDP, buy with confidence . Please note; at least 3 heifers seen with varying white on udder or navel. 2 heifers seen with slight blue eye scarring and 3 seen with varying small amount of warts. Please note paint in videos & photos was for drafting purposes and doesn't reflect on teeth.
