Assessor Comments	Barrajo Pty Ltd offer their complete drop of 286 Angus steers. Steers that are usually sold direct to the feedlot around October at approximately 450kg average. However, this years very trying seasonal conditions have not allowed these steers to reach anywhere near their potential on farm, leaving the door wide open for a buyer to jump on & appreciate some serious compensatory weight gain! Structurally correct, and designed to finish early & yield strongly. Steers with a good long barrel & plenty of depth, out of a heavily classed Dunoon Angus blood cow herd, By select high growth/positive carcass Dunoon & Ardrossan Angus Sires. These healthy, young store condition steers received their 5in1 booster, a drench & a fly/lice pour on at assessment, and will kick away on a fresh paddock with some sunshine! With the added bonus of EU accreditation if you wanted them that way.
