Yards	Crush	Paddock
Quiet: 88 head Slightly Stirry: 12 head	Quiet: 91 head Slightly Stirry: 9 head	Temperament not assessed in Paddock

	Cattle always handled in a calm manner using Low stress practises. Quietly brought up to the force & race without need for a piece of pipe, arm raising, or yelling. Generally self fed up the race from there, with the occasional need to encourage them through. A few of the smaller steers could turn around in the race, caused no real dramas as majority turned back around or just moved backward through the race.
Handled With	Bikes , Low Stress Stock Handling© practices (January 2014) , On foot , Vehicles

Notable Traits

	Traits
6 Head	Black Baldy (in complete mob of 200)

3 Head	White splash on flank (in complete mob of 200)
2 Head	White up to/forward of the navel (in complete mob of 200)

Assessor Comments	Barrajo Pty Ltd offer their complete drop of 286 Angus steers. Steers that are usually sold direct to the feedlot around October at approximately 450kg average. However, this years very trying seasonal conditions have not allowed these steers to reach anywhere near their potential on farm, leaving the door wide open for a buyer to jump on & appreciate some serious compensatory weight gain! Structurally correct, and designed to finish early & yield strongly. Steers with a good long barrel & plenty of depth, out of a heavily classed Dunoon Angus blood cow herd, By select high growth/positive carcass Dunoon & Ardrossan Angus Sires. These healthy, young store condition steers received their 5in1 booster, a drench & a fly/lice pour on at assessment, and will kick away on a fresh paddock with some sunshine! With the added bonus of EU accreditation if you wanted them that way.
