Very quiet young heifers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd heifer that turned around in the race. Quiet to walk amongst in the large yards for photos. Quiet, well weaned girls that could be handled by a stock person of any experience.

Handled With: Bikes , Dogs , On foot , Vehicles

1 Head	Small amount of healing ringworm

Assessor Comments

Quality line of young, well started heifers. All bred by the vendor, bucket reared for an extended period, weaned on to pellets early, then started on a grain ration. Marching ahead and showing excellent weight for age. These Calves are throwing well to the attributes of the Angus, with excellent shape, very good depth or body and good length. An ideal line of heifers to go any way with - continue on a feed ration and target a domestic or export market or take through and join as future vealer mothers. Buyers please Note. Vendor has another 2 lots of Heifers in the same sale from a different property, as well as 3 lots of Steers (1 from this property, 2 from another property)
