These Steers handled well during the initial part of the assessment & during photos/videos. Whilst mouthing & tail trimming there were a handful of animals agitated with the process, but all in all there are no real major concerns regarding temperament.

15 Head	Pinkeye Scarring, Single Eye

Assessor Comments Clearhills Partnership purchased these Hereford Steers as light backgrounders from the NVLX saleyards late last year with the intention of growing them out to a feeder weighted animal. The performance of these Steers has been exceptional given the fact they have only had access to grass & wheaten hay. Ideal feeder Steers with plenty of frame, compensatory growth & maturity on their side.
