Assessor Comments	Excellent quality young breeders starting their productive careers! All heifers are registered, can be transferred, offspring can also be registered. These girls have been run as classed in stud heifers in a small management group as part of the 400 strong registered herd from Outwest Angus. while not individually noted or observed, there is a possibility of having the odd white mark on udders or underline, very much within breed standard. PTIC 7-8 months in calf to very low birth weight stud sires EBV's from -0.3 to +1.9 for birth. this is an opportunity not to be missed! 26 heifers in 3 lots, this lot of 13 (5-6 months).
