Heifers have been weaned and educated, heifers like most bos indicus influenced cattle like be worked with room rather than tight high pressure areas, heifers were fine in biggers yards with only a small percentage becoming nervous in high pressure areas

Handled With	Bikes , Dogs
Assessor Comments	Buyers here is a small lot of store condition heifers for your consideration, these heifers have had below optimal seasonal conditions and are starting to shine up after their recent introduction to a light oats and vetch crop. The heifers are clearly gaining weight, loosing their winter coat and starting to clean right up. This little lot of heifers present as a lower dollar value investment, ideal to stash away on good feed ready for rain.
