| Burr/Seed in Coat | No Burr or Seed of weeds declared noxious observed in the coats at assessment |
| HGP Status | The owner declares that the cattle have not been treated with HGP at any period of their lives |

| Quality Grades | | Store Condition | |
|---|---|---|---|
| Very Good | 35% | Store | 100% |
| Good | 58% | | |
| Fair | 7% | | |

Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 68 head | Quiet: 67 head<br>Slightly Stirry: 1 head | Temperament not assessed in Paddock |

The steers were generally very good to handle throughout the yards and crush. They were settled in the yards and flowed easily from one yard to the next.

Handled With: Bikes

Notable Traits

| | Traits |
|---|---|
| 1 Head | Moderate Blue eye in one eye |
| 6 Head | Winter Hair Loss & Rub Marks Neck & Shoulders |

Assessor Comments: A fair through to good and very good quality line of vendor bred EU Angus and Angus x steers. They are medium to large frame and suit to background to heavy domestic feeder and then onto export feeder weights. They are grain and antibiotic free so would also be eligible for a pasture finished program. Vendor has an extended but not continuous calving. They are sired by good quality Te Mania Angus bulls. No steers with active pink eye were seen at assessment but the yards and the paddocks are very dry and they will be rechecked prior to delivery. Two steers were noted as being marked approx 6 weeks ago. The season has been very tough in this district and these steers got access to a forage barley crop which has freshened them up. They are being supplemented with cereal hay in the paddock with their last access to hay the day prior to assessment. They were drafted with a LWR of 196- 365 kg with a small lighter tail removed at assessment. They are nice quality steers that have the genetic quality to move ahead quickly with access to good feed.
