Assessor Comments	Flock reduction. 560 merino ewes all had lambs marked before they were 2 years old been shorn every 6 months very productive sheep. Easy care type very fertile and filling bales with white bright stylish wool. Ewes had 100% lambs weaned off them as maidens and are drying up in the utter well and very much on the do since weaning. Ewes will be very fresh by delivery. Ewes purchased to be easy care, produce terminal lambs and bales and the lines put together could not match any better.
