Temperament

Yards	Crush	Paddock
Quiet: 92 head	Quiet: 88 head	Quiet: 99 head
Slightly Stirry: 9 head	Slightly Stirry: 13 head	Slightly Stirry: 2 head

Cattle are well handled in paddock. Flow through yards well. As noted the odd best turns slightly stirry when under pressure or isolated in the crush, however they settled very quickly when returned to the mob. Zero aggressive cattle.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Notable Traits

	Traits
4 Head	Flybite

Assessor Comments	Opportunity to purchase a line of well bred young heifers with multiple options ahead of them. The heifers are well grown in a weight for age sense and would be ideal future breeders if given the opportunity to grow out. Given their performance on pastures post weaning they should also be excellent performers in a backgrounding situation. Typically the vendor takes these heifers out to a feedlot entry or joining weight himself however this group exceeded expectation and achieved an acceptable saleable weight early. The Holdcroft cattle enjoy a well earned reputation for performance wherever they go.
