Temperament

Yards	Crush	Paddock
Quiet: 104 head	Quiet: 66 head	Quiet: 120 head
Slightly Stirry: 15 head	Slightly Stirry: 48 head	
Stirry: 1 head	Stirry: 6 head	

Superb - these heifers were pregnancy tested and assessed run through the crush and race twice in order to be identified. As you can see from the video footage the cattle have faultless temperament and have been well educated. They came up for assessment with relative ease with only the odd animal observed to be understandably swift gaited upon releasing from crush.

Handled With	Bikes

Notable Traits

	Traits
7 Head	Fly Bite
1 Head	wart

Assessor Comments	These cattle need no introduction and have developed a sound reputation for their performance. They have been drafted to present in a tight weight range of 84kg. These cattle continue to improve year after year with the steer portion highly sort after by repeat feedlot buyers with these heifers only being offered due to surplus in requirements. The cattle present in a good strong store to forward store condition and have been recently benefiting from the early green pick we have been blessed with this year. They have ample frame and present in a condition ideal for compensatory weight gain. These cattle display good length and muscling ability and with the Euro/limousin influence will continue to grow out into high yielding heifers with an outstanding carcass. Refer to photos and video for breed content satisfaction Please note another neat 4 decks of feeder weight heifers separate from this run is also available
