Steers flowed well through yards and race with majority slightly stirring in crush while being weighed and mouthed, However once released into bigger yard steers settled very quickly. Steers have been well educated by the vendor and were a pleasure to handle throughout the assessment process.

Handled With	Bikes
Assessor Comments	A good quality line of crossbred backgrounder steers. These steers display good length depth and bone for age and present in good store condition. Steers have been running on lighter granite country so should continue to perform well for any potential buyers with good summer feed. Steers would ideally suit to grow onto heavier feeder weights or export slaughter weights.Steers offer a good potential quicker trade opportunity in current market
