Weaners flowed through the yards well. The odd Heifer stirred under pressure in smaller yard and in crush but settled straight away once back with mob. Weaners will continue to improve with more education to be given prior to delivery.

Assessor Comments	Buyers 3 decks of PCAS eligible Droughtmaster & Droughtmaster X heifers that present in fresh to store condition & best described as being medium to large frame. Heifers have been weaned for over a week being fed vetch hay in yards with some tailing out using bikes, horses and dogs. A reputable line of heifers that show plenty of bone, length & frame that are ready to grow out on improved pasture or fresh grass. At assessment 1 heifer noticed with some warts around eye but not seen as detrimental. A good line of heifers that will continue to grow out as good feeder heifers or future breeders. Buyers please note there are 2 family brands on these heifers.
