They will be offered on a c/kg basis and to be weighed at Robinson Grain weigh bridge Dubbo less 5%, at the cost to be incurred by the purchaser. Half the steers contain 3/4 Angus content and the other half are 7/8 Angus content. They have been bred out of an Angus/Santa cross cow herd by the OUTWEST Angus bull. Vendor is an annual repeat buyer of these steers that are purchased from a breeder in the Bylong Valley area. Normally retained and fattened into bullocks, with last years progeny dressing an average of 387kg through Nippon Meats (Wingham) abattoir . These steers were quiet and easy to handle through yards and present in forward condition ideal for feedlotting or fattening on grass. 2 steers had a slight red colouring through their coat from the Santa influence.
