Health Treatments

Drenched	15/07/2026	Cattleguard	
Vaccinated	15/07/2026	5 in 1	Second Dose

Chemical Residue	Clear - No known history.
Vendor Comments	There was a small tail removed from this line. Most of these would normally be retained to use as replacement heifers for future breeding purposes but due to the season this is a reluctant sale. 90% of this entire line of 253 weigh 230-300kgs.
Joining Details	Not Station Mated
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

Temperament

Yards	Crush	Paddock
Quiet: 121 head Slightly Stirry: 5 head	Quiet: 116 head Slightly Stirry: 10 head	Temperament not assessed in Paddock

Heifers were very good to handle in all areas of the yards. Only the very odd heifer did resent being in the crush. Very quiet to move around out in the bigger yards.

Handled With: Bikes , Dogs , Horses

Notable Traits

	Traits
12 Head	Blue eye scarring
9 Head	Warts

Assessor Comments: Buyers, here are a large line of Poll Hereford, Angus and F1 heifers that present in store to forward store condition. These heifers had had the luxury of being grazed on oats for the last few months but prior to that the seasonal conditions were very tight and still are. The oats has now come to an end and these need to go. There is an opportunity for restockers to purchase these to grow out further and class up with a view to retaining a fair percentage of these to fulfill future breeding purposes. The photos and videos will show there are 17 black heifers all up and they will be drafted out and delivered into this lot. The other lot will all be straight Poll Hereford heifers and this means in total there are 236 Poll Hereford heifers in the entire run. There are a few with some eye issues that range from a small blue dot to blue eye scaring (sample attached in photos). There are also a few with some warts on them (head and neck). They might lack a little bit of weight for age however genetically they are sound and have the capacity to grow into medium to large framed breeders. They lend themselves for a continuation in a Poll Hereford program or to cross breed with a multitude of other breeds. They will also suit to grow out to domestic feeder entry weights. Buyers need to be aware these did have some access to grain at weaning so as a result a grassfed declaration will not be available.
