These steers are very quiet. They have been well educated and are easy to handle. A few steers didn't enjoy being mouthed but that was their only fault.

Assessor Comments	On offer is a nice line of 32 Angus feeder steers. These steers were purchased as weaners back in the Autumn and have performed exceptionally well over the winter and spring with recent average daily weight gains of 1.5kg. They are ideal in type and condition to feed further. Standing on plenty of frame these steers will make exceptional bullocks once finished. Their temperament is a real feature, all were easy to handle and quiet throughout the assessment. Please note the flexible delivery period as well as all-weather B-Double access.
