Assessor Comments: Presenting a line of Angus and Angus cross steers. They were purchased in as a late winter/spring trade. Although they have improved and recorded decent weight gains since arriving these steers are presenting in healthy store condition. They are offering immediate weight gains with improved nutrition having come off hayed off winter species with a fresh pick of summer species only just starting to grow through. They have been weighed from 233-413 kg full to average 278.6 kg with delivery adjustment applied. Ideal to background to feeder wights or suited to fatten for a domestic or export kill with time and feed. Please note vendor is also offering heifers in today's sale.
