Assessor Comments: A light 2 deck line of Angus and Angus cross heifers that are suited to background for a feedlot or fatten for a kill going forward. Presenting even as a line in fresh condition without being overdone. They have not had access to a bull and are guaranteed empty. They were returned to a fresh paddock and will continue to gain weight until delivery. They are made up of purchased in and a handful of vendor bred heifers. 100% weighed at assessment from 312-433kg to average 339kg with a delivery adjustment applied. These cattle are being sold as part of the program to make room for lighter replacements. A smart line of heifers ideal to utilise some excess feed and value add in this positive cattle market.
