These cattle have been handled extremely well handled during the weaning process, thus producing cattle that are a pleasure to draft and weigh. Even in old paddock yards they handled very easily.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	Quality well grown AngusX Angus/ Hereford heifers. No set backs in their lives, they are well grown and stand on plenty of bone. Vendor preg tested these heifers at assessment and found them to be heavy in calf to springing. Heifers have had no acces to bulls accept while running with mothers. This would suggest they are on the point of calving or very close. Heifers are in very good condition having been on oats since May. Fit to load protocols will be implemented and its suggested this lot doesn't travel long distances due to term of pregnancy.
