Fair	5%				

Temperament

Yards	Crush	Paddock
Docile: 115 head	Docile: 70 head Quiet: 45 head	Temperament not assessed in Paddock

An extremely quiet line of steers. I watched them being yarded by 3 people on foot, absolutely no fuss at all. They have been handled with low stress techniques through the whole weaning process. They were yard weaned for 5 days, then put out in a small paddock to complete the process. An absolute credit to the vendors.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: An outstanding line of Black Angus EU accredited weaned steers, with an extensive animal health regime. 115 steers in the line, April/May 2026 drop, weighing 335 kg curfewed. They have been exposed to a continuous supply of Bovine Boost powder, and have been vaccinated against pink eye. They have been drenched, vaccinated, and treated with pestiguard. As mentioned earlier, they have been weaned in the right manner, and are as quiet as church mice. The Wild Dog Creek group always source top end bulls, with a very big focus on continual herd improvement, and on quiet temperament. The Angus sires used include Granite Ridge, Nampara, and Roseleigh. An ideal line of steers to background before putting into the feedlot.
