Assessor Comments	Young breeders with all the hard work done. The heifers are in great order and milking really well. The calves are very fresh and sappy genuine spring calvers. 2 cows were noted to have slight blue/scarring in one eye. One heifer also had a white splash on its underline as well. These heifers were and absolute pleasure to handle as you can see in the video, they walk out well and worked excellent in both the yards and the paddock. They present in excellent condition, are very well grown and all calved down with no issues at all. They have had an opportunity back to the Wattletop bull for 1 month so far so the joining process is already started again. These are very impressive 1st and 2nd heifer and calf units and wont disappoint any breeding program.
