Vendor Comments	Very happy with the weight for age these lambs are showing. They have performed very well since being shorn and in the past have performed well in feedlot.

Notable Traits	Traits 18 Head scur

Assessor Comments	A very good line of lines suitable to turn out onto stubbles or enter straight into a feedlot. These lambs are very well bred and in years gone by have performed very well in feedlot scenarios. These lambs have truly gone forward since having been shorn in mid October. These lambs have been bred out of Poll Merino rams purchased with the aim to breed export lambs and cut a good amount of wool. Bid up with confidence that these lambs will continue to perform given the right management.
