Assessor Comments	The opportunity to purchase Santa/Droughtmater and Brahman cross cows with very good 165 kg Droughtmater and Hereford calves at foot, cows have been running back with Charolais and Black limousine bulls since 06/06/22 until delivery. Cows were preg tested at assessment with 42 PTIC from 1-8 months (35 blue & 7 red), the vet commented that the cows were cycling well and that there could be a fair percentage of undetectable fetuses in the PTE portion. These cows have done a good job on their calves in a very wet and waterlogged season. the majority of the cows under 400kg are branded #9 and are on their first calf. Please note 1 cow with 1 bottle teat. Good honest cows that present a good trade opportunity.
